Summary of most popular handheld sprayers and options available.

1. **SC-ET (suitcase sprayer with internal tank)**
   a. Suitcase style sprayer; two wheels
   b. One nozzle; electrostatic rechargeable spraywand
   c. Spray distance of up to 8 feet
   d. 1 ¼ gallon tank
   e. Liquid flow rate is 1 1/4 gallon per hour (100 ml per minute)
   f. Twin-line (air and liquid) hose length of 15 ft maximum
   g. Weight; 49 lbs.
   h. It is available in 110v or 220v
   i. It is available with optional “four wheels” for easy movement, at extra charge

2. **SC-EB (suitcase sprayer with external bottles)**
   a. Suitcase style sprayer; two wheels
   b. One nozzle; electrostatic rechargeable spraywand
   c. Spray distance of up to 8 feet
   d. 1-liter Nalgene bottle; (extra bottle included)
   e. Liquid flow rate is 1 1/4 gallon per hour (100 ml per minute)
   f. 25 ft air hose
   g. Weight; 49 lbs. empty
   h. It is available in 110v or 220v
   i. It is available with optional “four wheels” for easy movement, at extra charge
   j. When comparing the SC-EB to the SC-ET, if there is a need to move around further from the base spray suitcase, the SC-EB has a 25 ft hose, or more if needed, rather than just the 15 ft hose of the SC-ET.
   k. When more liquid solution is needed to spray, two separate Nalgene bottles can be attached in holsters

3. **XT-3 (dolly-type sprayer, a real “work horse”)**
   a. Powder-coated metal cart sprayer; two wheels
   b. Referred to as the “work-horse” sprayer
   c. One nozzle; electrostatic rechargeable spraywand
   d. Spray distance of 8 to 12 feet
   e. 3-gallon pressurized stainless-steel tank
   f. Liquid flow rate is 2 gallon per hour
   g. Weight; 47.5 lbs. empty; 112.5 lbs. full
   h. It is available in 110v or 220v
   i. Twin-line (air and liquid) hose length of 25 ft standard; 50 ft. optional extension

4. **(new) SC-MB-e (battery powered in a suitcase)**
   a. Suitcase style sprayer; four wheels standard for ease of mobility
   b. One nozzle; electrostatic spraywand
   c. Spraywand does not need recharging – powered from base unit
   d. Spray distance of 4 to 6 feet
   e. 1 gallon internal tank
   f. Liquid flow rate is ¾ gallon per hour (80 ml per minute)
   g. 1 ½ hrs. of battery “run time”.
   h. 5 to 6 ft air hose:
   i. Weight; 65 lbs. full
5. **(new) BP2-e (battery powered backpack)**
   a. Backpack style sprayer; for ease of mobility
   b. One nozzle; electrostatic spraywand
   c. Spraywand does not need recharging; base unit powered
   d. Spray distance of 3 to 4 feet
   e. 1-liter Nalgene bottle
   f. Liquid flow rate is ¾ gallon per hour (80 ml per minute)
   g. Weight; 31 lbs. with spraywand, battery and full bottle
   h. It is available in 110v or 220v, plugs for battery charging.

6. **SNB (spraywand and bottle; compressor purchased separately)**
   a. One spraywand with electrostatic nozzle; rechargeable
   b. One 1-liter Nalgene bottle
   c. 25 ft air hose (50 ft of additional hose can be added)
   d. Spray distance of 4 to 5 feet
   e. Liquid flow rate is 1 gallon per hour (100 ml per minute)
   f. The customer/user is responsible to purchase a compressor separately with at least 4 CFM of compressed air available, and arrange for necessary quick connections to attach air hose to compressor.

7. **BP1 (spraywand and backpack; compressor purchased separately)**
   a. Backpack style sprayer; for ease of mobility (4 gallon or 2.5 gallon same price)
   b. One nozzle; One spraywand with electrostatic nozzle; rechargeable
   c. 100 ft air hose (300 ft maximum available upon request)
   d. Spray distance of 4 to 15 feet, depending on psi and cfm
   e. Liquid flow rate is 1-2.5 gallon per hour (100ml to 150ml per minute)
   f. Weight: Empty 7 lbs., Full 4 gallon - 39 lbs. 2.5 gallon – 28 lbs.
   g. It is available in brass or stainless-steel connectors
   h. The customer/user is responsible to purchase a compressor separately with at least 4 CFM of compressed air available, and arrange for necessary quick connections to attach air hose to compressor.

8. **SC-MB (battery powered in a suitcase)**
   a. Suitcase style sprayer; four wheels standard for ease of mobility
   b. One nozzle; electrostatic rechargeable spraywand
   c. Spray distance of 6 to 8 feet
   d. 1-liter Nalgene bottle
   e. Includes both detachable external holster and hip belt holder
   f. Liquid flow rate is ¾ gallon per hour (80 ml per minute)
   g. 15 ft air hose
   h. Weight; 48 lbs. empty
   i. It is available with 110v or 220v for battery charging

9. **BP2 (battery powered backpack)**
   a. Backpack style sprayer; for ease of mobility
   b. One nozzle; electrostatic rechargeable spraywand
   c. Spray distance of 4 to 5 feet
   d. 1-liter Nalgene bottle
   e. Liquid flow rate is ¾ gallon per hour (80 ml per minute)
   f. Weight; 30 lbs. with spraywand and empty bottle
   g. It is available in 110v or 220v, plugs for battery charging.
